

Universal Collar and Cuff Sling

Designed to suspend arm with or without a cast

Application Instruction

1. Remove sling from packaging.
2. Place sling strap round neck with foam neck pad positioned at the base of the neck.
3. Open and place injured arm in cuff. Secure with hook and loop closure.
4. Sling strap is adjustable for proper arm height adjustment.
5. Re-adjust for comfort.

CAUTION: If pain increases or persists discontinue use and contact your healthcare provider.
