The armrest should be attached on the same side of large suction-cup legs. Hold the armrest so that it curves away from the bench, and then connect it to bench by depressing the push pins, inserting the arm and releasing the pins.

Before attaching the backrest to the bench, assemble it using the push-pin method. Push the pins and slip the poles into the backrest poles. Depress the push pins again to slide the poles of backrest into the holders underneath the seat. To ensure security the backrest must go through both holders. Reverse the back to change entry from right to left or vice versa.

Position large suction-cup legs in the bath tub and adjust for individual user. To remove or reposition the legs, pull the tab on the suction cups. Check that the bench is level to be on the safe side.

Care
Use a mild cleaning product—no abrasive, scouring pads or solvents including lacquer thinner, turpentine or acetone.

Precautions
Do not exceed the user weight capacity of 300 lbs. Test for stability before use.

Ensure that all push buttons are locked in place before use.
