

# Want to be snug as a bug in a hug?

*A discrete Sensory Pressure "Hug" that can be used anywhere when a child with Autism just needs a break*

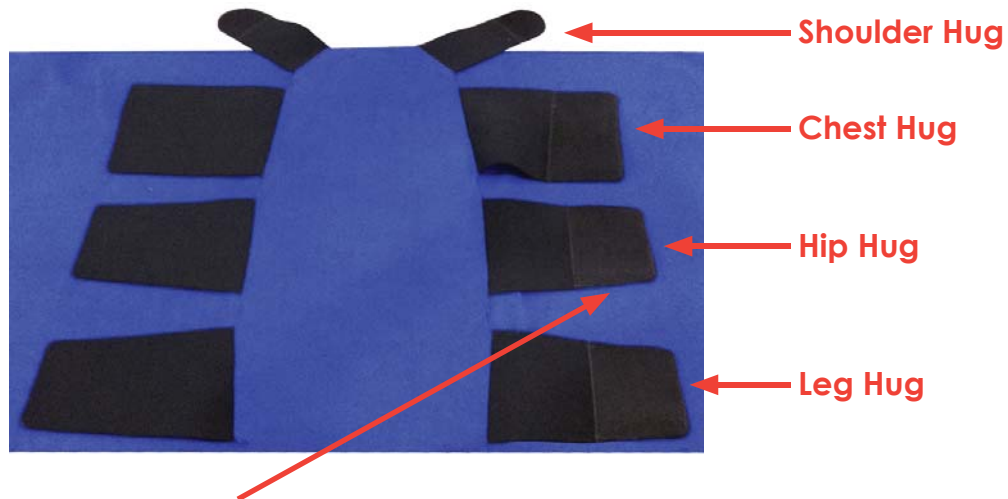

*Made of quality materials  
Soft fleece blanket  
Washable*

*Discrete – Easy to use  
Applies pressure that you adjust  
Portable – Can be used anywhere*

**What is a Snug Hug?** It's a portable pressure wrap for the body. Unlike Sensory Vests, which only apply pressure to the chest area, a Snug Hug allows the user to apply pressure over 4 areas; Shoulders, Chest, Hips and Legs. The separate straps allow the user or caretaker to adjust each area separately to the desired pressure.

Heavy duty Hook is sewn on the end of each strap so that as the straps are folded over, the Hook adheres to the Neoprene w/Loop fabric.

## Snug Hug is available in 3 friendly colors
