Total Support in a Slip-on Sandal

Target Consumer:

Consumers seeking firmer support and motion control in a premium slip-on sandal.

Recommended For:

Duplicating the features of the Total Support Insole in a slip-on sandal.

Increased shock absorption and advanced support for the arch and heel.

Improved motion control to reduce pronation and supination.

Best For Use:

After sports or training, indoor or outdoor wear, whenever sandals may be worn.

Components*:

TPR Rubber, EVA Injection, Polyester webbing, PVC, PU Nubuck, 4-way Stretch Polyester, EVA Closed Cell, Inside Lining: SBR Rubber Foam
Thickness at Heel: 12.80mm (1/2in),
Thickness at Forefoot: 12.30mm (1/2in)

Instructions:

Slip on and enjoy.

Care:

Hand wash in warm water. Air dry.

Sizing Chart:

Size	6	7	8	9	10
U.S. Women's					

Features & Benefits:

- Total Support Cushioning System** absorbs shock and helps prevent over pronation.
- Orthotic Arch Support** and deep heel cupping promotes stability, alignment and motion control.
- Soft strap and premium materials** provide lasting comfort and wear.
- EVA surface custom molds over time to conform to the unique shape of the wearer's feet.**
- Metatarsal Arch Support** offloads pressure from the ball of foot to help relieve forefoot pain.

Call toll-free: 1-800-877-3626
