The Recovery Series Encompass provides the optimum functional training experience. Works multiple muscle groups together for a complete workout that challenges proprioception and core stabilizers by integrating multi-plane movement and unrestricted range of motion. Perfect for your physical therapy wellness program.

The Clinical Complete Package adds four additional accessories to provide comprehensive support to clinicians in the utilization of the Encompass – from rehabilitation to sport-specific power training and progress assessments.

SCRUNCH
For early closed-chain functional movement patterns in a partially loaded environment.

WEIGHT BAR
Provides attachment point for Biomechanical Ankle Platform System (BAPS board).

LEG PULLEY SYSTEM
Provides control and safety by enabling you to set the rolling distance of the glideboard.

PRESS BAR
Provides a solid handhold during squat exercises.
