

Easy • Lightweight • Highly Conformable • Low-Moderate Stretch

CuraDrape

by  Rolyan®

Now Available!
New CuraDrape Colors!

**Novice or pro,
with new CuraDrape,
splinting just got easier.**

Regardless of your splint-making experience, with CuraDrape you can easily create splints with a professional finish that are lightweight and comfortable for your patients to wear.

CuraDrape, a low-moderate resistance to stretch, forgiving, and highly conformable material, allows you to work without the worry of fingerprints or excessive drape. It's easy to cut, easy to form, and feather light with a velvety soft, silky smooth finish.

Plus, it features moderate memory, especially helpful if adjustments are needed on return visits. Novice or pro, with new CuraDrape, splinting just got easier.
