AT NUSTEP, we believe exercise has the power to transform lives. And, we believe people of all ages, fitness levels and functional abilities can transform their lives with exercise.

That’s why we developed the NuStep recumbent cross trainer.

Designed by exercise physiologists and ergonomic specialists, the NuStep was the first exercise equipment of its kind when it was introduced in 1995.

Nearly 25 years later, NuStep’s cross trainer models represent the gold standard for high-quality, inclusive exercise equipment.

Easy to access and easy to use, NuStep recumbent cross trainers deliver a low impact, total-body cardio and strength workout that can benefit a wide range of users.

TAKE THAT STEP and add a NuStep T4r recumbent cross trainer to your location today.

CALL +1 734.769.3939 or VISIT NUSTEP.COM
The NuStep T4r recumbent cross trainer’s inclusive design and user-friendly features make it a popular choice in healthcare, senior living and fitness settings. With a low inertia start-up, user controlled step length and 10 resistance levels, the T4r empowers users to exercise independently and adjust their workout as they progress.

- Comfortable seat swivels 360° and supports users up to 400 lbs (182 kg)
- Sturdy grab ring and StrideLock® for support and stability
- Easy arm adjustments
- Supportive and stable foot pedals
- Display console is easy to read and use
- Smooth and natural movement
