

GAME DAY

GAME DAY *PRO*

FLEX BASE

Built from molded EVA for a lightweight and secure feel without being restrictive.

PRO BASE

Built from a nylon composite for a secure and responsive fit without sacrificing mobility.

INSITE PATENTED SHAPE

Custom-like benefits for 85% of all wearers was achieved by analyzing over 100,000 3D foot-scans combined with research in biomechanics, and muscular activation.

DUAL-FOAM LAYER

A layer of cushioned shock absorption foam is layered on top of high energy return foam to mimic the composition of the human foot.

CUSHIONED HEEL

Reduces peak pressure where needed most. Designed to cushion the heel bone for maximized comfort and shock absorption.

TOP CLOTH

Optimized-low friction material to reduce hot spots and slippage.

FOREFOOT GRIP

Stabilizes the forefoot, enhances playing surface feel, and ensures a consistent placement in the sneaker
