## HELPING YOU HEAL ONE STEP AT A TIME

### THE ULTIMATE MEDICAL TREADMILL

You want the best for obvious reasons. The PPS Med is the ultimate medical treadmill. From rehabilitation and orthopedics to sports medicine and physical therapy, the PPS Med treadmill provides comfort and support to patients while saving you money over the life of the product.

### PATIENT SAFETY & USABILITY

Our patented Slat Belt running surface helps absorb more of the impact than any other treadmill preventing further deterioration of bones, tendons, ligaments and muscles of the lower extremity, pelvis and lower back.

The PPS Med is the ideal machine for patients requiring walking support. The medical grade, parallel handrails provide a safe and comfortable platform for patients.

### CONVENIENT CONTROLS AND ACCURATE CONSOLE

Pre-programmed medical tests and protocols on the external touch screen console give doctors and therapists quick and clear results of each PPS Med user.

### RELIABILITY

The Slat Belt running surface also has distinct advantages for you and your facility. Lasting up to 150,000 miles without a single belt change or deck swap, it was designed to make up for conventional treadmills shortcomings, most notably wear and friction. The rubberized slats are built like a tank, literally. With 116 ball bearings the belt glides, which results in years of life with very little maintenance and up to 50% in electrical savings. There is no need to adjust and tension the belt, our design utilizes tracking rollers and a toothed pulley. The result, the lowest maintenance and lowest total cost of ownership of any treadmill.

PPS MED

**WOODWAY USER SYSTEM (WUS) DISPLAY**

- LCD touch screen operator panel
- Menu driven operation
- Remote speed, stop and elevation control
- 18 pre-set programs (ability to create/store up to 200 custom programs)
- Medical Test Cycles (e.g. Conconi, Cooper, Bruce...)
- Automated pulse monitoring
- Speed, distance, elevation, pulse, time and calorie readout

**(\*\*OPTIONAL) ARM SUPPORTS**

Lower-arm/Under arm supports promote physiological exercise and provide optimal stabilization for the patient. Fully adjustable and secure both horizontally and vertically. Also double as under arm supports with simple padding rotation.

**(\*\*OPTIONAL) SIDE SEATING**

Conveniently placed side seats allow therapists to sit comfortably while assisting a patient.

● Standard Feature ○ Optional Feature

PHYSICAL SPECIFICATIONS	
Running Surface Dimensions	22" W x 68" L (55 x 173 cm)
User Weight Capacity	Run: 400 lb. / Walk: 800 lb. (4 mph max)
Belt Type	60 Individual Slats
Drive System	116 Precision Ball Bearings with 10 Roller Guides (4 mm lateral tolerance)
Running Surface	Vulcanized Rubber (38-43 shore hardness)
Drive Motor	2 hp Continuous (5 hp peak) Brushless Servo
Unit Weight	465 lb. (Shipping Weight 533 lb.)
Width	41" (104 cm)
Length	73" (185 cm)
Height	59" (150 cm)
Power Supply	115 Vac 20 Amp Power Supply (Dedicated Circuit & NEMA 5-20R Outlet Receptacle Required)
Slate White Handrails	●
Efficient AC Brushless Servo Motor	●
Arm Support	○
Combination Arm Support/Underarm Supports	○
Fully Adjustable Parallel Handrails	○
Side Seating	○

USER INTERFACE	
Coded/Non-Coded Polar Heart Rate Pick-up	●
Wireless Remote (Controls PT Pro Software)	○
RS-232 Serial Port Interface	●
PT Pro Software Package (Includes RS 232 Interface)	○

**Warranty:** 5 year drive, motor & belt  
4 year all components  
1 year labor

PERFORMANCE SPECIFICATIONS	
0-25% Incline	●
(-5%) - (+20%) Incline	○
0-11 MPH (0-18 km/h)	NA
0-12.5 MPH (0-20 km/h)	●
0-15 MPH (0-24 km/h)	○
0-16.5 MPH (0-26 km/h) (Requires 208V/230V)	NA
0-18 MPH (0-29 km/h) (Requires 208V/230V)	NA
115 Vac 20 Amp	●
208/230 Vac 20 Amp	○
Medical Package (Hospital grade circuitry, reverse & 4 year parts warranty)	●
Reverse (0-5 mph)	●
