

## SAMMONS PRESTON WRIST BRACE WITH THUMB SPICA

Sammons Preston Wrist Brace is designed to provide immobilization support for those with wrist or hand joint injuries. The contoured design at the palm of the brace allows for full finger function, while providing the necessary support & stability to prevent further injury. An ideal option to immobilize joints while still being able to use their hands.

### Key Features:

- Ideal for immobilization of wrist and hand joints
- Contoured design at the palm allows for full finger function
- Includes removable palm and thumb stays for custom fit
