

NEW PRODUCT

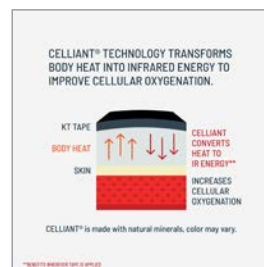

KT TAPE PRO OXYGEN

KT Tape Pro Oxygen is the only kinesiology tape embedded with Celliant® Infrared Technology: a patented blend of natural minerals that transforms body heat into full-spectrum infrared energy to improve cellular oxygenation, with benefits where tape is applied. When properly applied, KT Tape Pro Oxygen with Celliant infrared technology makes more oxygen available to cells.

Key Features:

- Celliant® Infrared mineral powder converts body heat to infrared energy
- 100% synthetic tape engineered with high-strength water-resistant adhesive
- Ultra breathable synthetic fabric for up to 7 days of comfortable wear
- Dermatologist Tested, Hypoallergenic, and Latex-Free
