LIFE UNSTOPPABLE

THERMOSKIN FOOT STABILIZER

Thermoskin now offers you one orthosis, but multiple configurations to treat various injuries quickly and efficiently. This product is designed to alleviate foot pain and to help prevent injuries with its vise-like effect maintaining the midfoot structure between the hindfoot and the forefoot. As it supports the midfoot, the Foot Stabilizer maintains the natural articulations of the foot. It also provides compression and support of the midfoot to minimize pain associated with injuries.

Key Features:

- This soft thermal foot orthosis is designed to treat and prevent foot injuries
- Features a comfortable material and hook and loop straps for a customized and secure fit
- Latex free
- Sizing based on US men shoe size
