

THERMOSKIN SHOULDER SUPPORTS

The Thermoskin Thermal Shoulder uses exclusive thermal technology to provide targeted support and protection, helping to keep the shoulder warm by retaining natural body heat. This warmth can assist with the prevention, treatment, and rehabilitation of soft tissue injuries. Designed to promote increased circulation and reduce discomfort.

Key Features:

- Universal fit for left or right shoulder
- Not for shoulder dislocations or shoulder bracing
- Latex-free materials
- Sizing based on chest around middle
