

## THERMOSKIN ARTHRITIS COMPRESSION GLOVES

The combination of heat therapy and gentle compression work together to relieve arthritic and joint pain in fingers and hand. The open fingertips allow a better sense of touch and the textured material in the palm provide additional grip.

### Key Features:

- Trioxon lining captures your body heat for therapy & pain relief
- Provides insulation and wicking of moisture via air circulation
- Adjustable wrist closure is easy to apply & provides a better fit
- Sizing based on circ. around knuckles
