

THERMOSKIN PLANTAR FXT COMPRESSION SOCKS CALF

Thermoskin Plantar FXT Compression Socks – Calf are engineered with anatomically designed compression zones that target both the feet and calves to support advanced pain management for plantar fasciitis, Achilles tendonitis, arch pain, and heel spurs. These socks are also well-suited for enhancing sports performance and recovery.

Key Features:

- Moisture wicking, antibacterial silver microbial fibers
- Comfort foot pad at ball for extra cushion
- Compression band around foot arch for additional support
- Sizing based on calf girth.
