

EXERCISE THERAPY

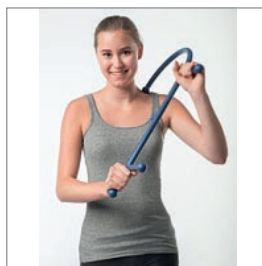

Theracane Massager Self-Massage Hook with Grip Handles

The Thera Cane Massager is ergonomically designed to apply pressure to sore muscles, massaging trigger points for myofascial release. The deep muscle massager provides a deep tissue massage to the back, neck, hamstrings, and other hard-to-reach areas of the body. Using Thera Cane along with a daily stretching routine can help obtain long-lasting pain relief. Included are illustrated instructions featuring massage techniques and recommended stretches.

Key Features:

- Apply deep tissue massage to sore muscles and trigger point for overall body pain relief
- Use while standing, sitting, or lying down at home or in therapy
- Includes easy grip handles and nodules
