

SAMMONS PRESTON NEOPRENE KNEE SUPPORT

Nylon-covered neoprene sleeve provides support, compression and warmth for knee strains, sprains, arthritis, and post-operation rehabilitation. Patellar cutout ensures appropriate patellar positioning. Sizing based on circumference below knee cap.

Key Features:

- Indications: for support, compression, and warmth for knee strains, sprains, arthritis, and post-op rehab
- Neoprene sleeve with patellar cutout promotes proper kneecap positioning
- Optional medial/lateral spring stays and compression straps add targeted support
