SAMMONS PRESTON LACING WRIST BRACE

The Sammons Preston Lacing Wrist Brace promotes stabilization without limiting the thumb rotation. Utilize the dorsal stays to provide additional support during everyday use. The unique stockinette lining offers optimal comfort and easily slips on. Use this wrist brace to manage pain caused by sprains or strains and injury.

Key Features:

- Provides stabilization and support for the wrist to help manage pain and promote healing
- Constructed of perforated material, malleable aluminum, and flannel lining
- Features an easy, slip-on design and hook and loop closures
- Sizing based on wrist circumference
