SAMMONS PRESTON POST-OP SHOE

Sammons Preston Post-Op Shoe offers a rigid sole with tread for forefoot support and a padded, breathable upper that comfortably conforms to the user's foot. The rigid sole is designed to facilitate post-op healing and provide high-quality foot protection and superior control of forefoot motion. A reinforced heel back helps reduce slippage and stabilizes the rear of the foot. Sizing based on shoe size.

Key Features:

- Indications: for post-operative foot care and recovery
- Rigid sole supports the arch and relieves pain and pressure on the forefoot and heel
- Providing a safe and secure fit with two adjustable straps
- Complete with a grip-enhancing tread
