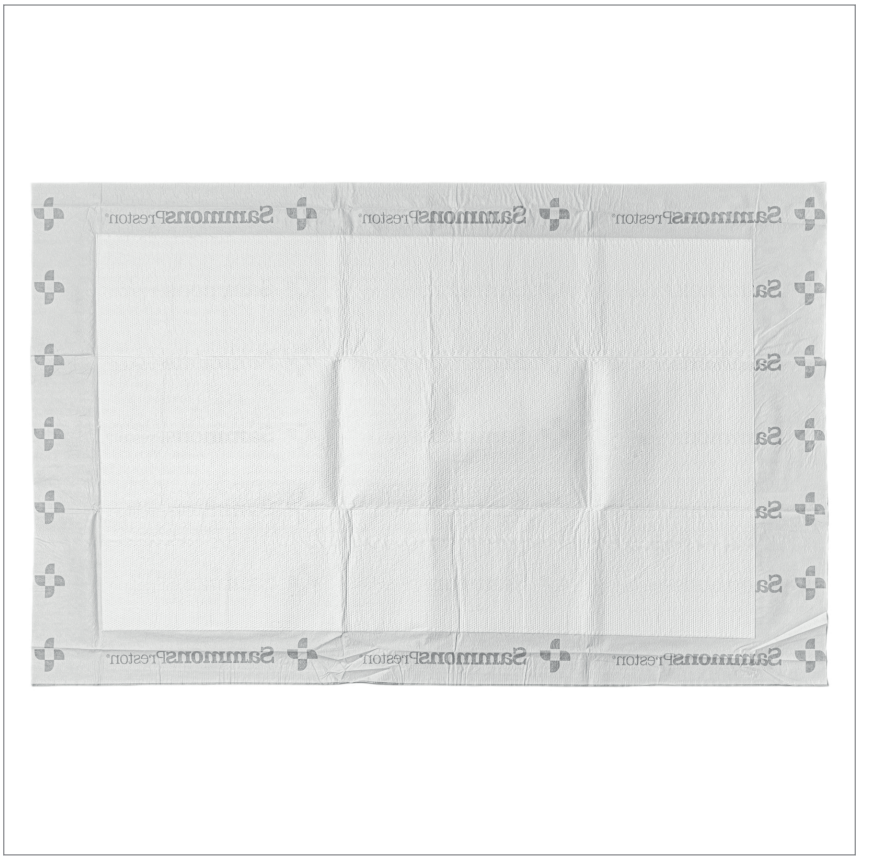
SAMMONS PRESTON DRY PADS

Sammons Preston Disposable Dry Pads are designed to provide dependable fluid management and patient protection in both clinical and home care environments. Offered in a range of sizes for versatile coverage, these underpads use a multi-layer construction to rapidly absorb and trap moisture while keeping the surface dry and comfortable.



Key Features:

- Fast absorption keeps surface drier, longer
- Multi-layer core locks in fluid, reduces rewet
- Waterproof backing protects bedding and surfaces
- Soft, low-lint top sheet supports patient comfort
