

# Mesh D-Roll

## Compact Backrest with Maximum Support

NEW!

- Provides targeted support for the lumbar curve
- Cool & comfortable
- Compact & lightweight design
- Elastic strap fits almost any chair

### Proper Posture

The Mesh D-Roll backrest is a shorter, more compact version of the original Mesh Sitback Rest.

A mere eight inches in height, the unique shape of the Mesh D-Roll provides support to the lumbar curve of the spine.

This back rest improves posture and comfort while sitting, without adding bulk.

The compact shape and lightweight size allow users to transfer the Mesh D-Roll from their office chair to their car with ease.

### Durable Materials

The Mesh Sitback Rest is constructed from nylon, which is known for its strength and resiliency. It can be secured to any chair with the convenient, elastic positioning strap.

The mesh material ensures maximum breathability, making it cooler and more comfortable than back rests constructed from foam, which retains heat.

### Specifications

#### Product Number

- # 081564657 , Mesh D-Roll

#### Dimensions

- 6"W x 8"H x 3.5"D (41x20x8cm)

#### Weight
