

SWEDE-O THERMAL OPEN WRAP SINGLE PIVOT HINGED KNEE BRACE

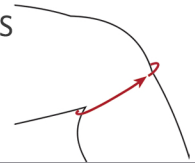

Swede-O Thermal Single Pivot Open Wrap Hinged Knee Brace provides exceptional medial and lateral stability for the knee. Durable polycentric hinges provide a hyperextension stop at 0°, while providing extra support for medial and lateral ligament injuries. Open wrap design offers easy application and adjustment.

- Polycentric hinges provide exceptional support
- Anatomically designed for rotary instabilities secondary to cruciate injuries and deficiencies
- Thermal lining captures and retains natural body heat to increase blood flow and aid in the healing process
- Provides compression to help reduce inflammation and swelling
- Open knee wrap brace design for easy application and adjustment
- Wrap around straps help to prevent migration
